response information)

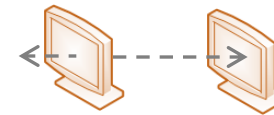

Four Query-Retrieve Methods

Manual retrieve

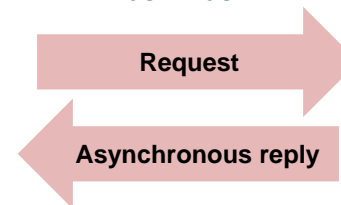

- Find record location via portal
- Retrieve records manually (phone, fax, etc)

Cross-entity viewing

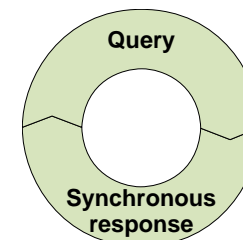

- View other EHR within own EHR or HIE Portal
- “SSO-like” access between participating systems

“Push-Push”

- Email-like manual process
- Does not require new standards – leverages Stage 2 MU

“Query-response”

- Query with automated response
- Like electronic eligibility or RX history requests
- Requires new standards beyond Stage 2 MU

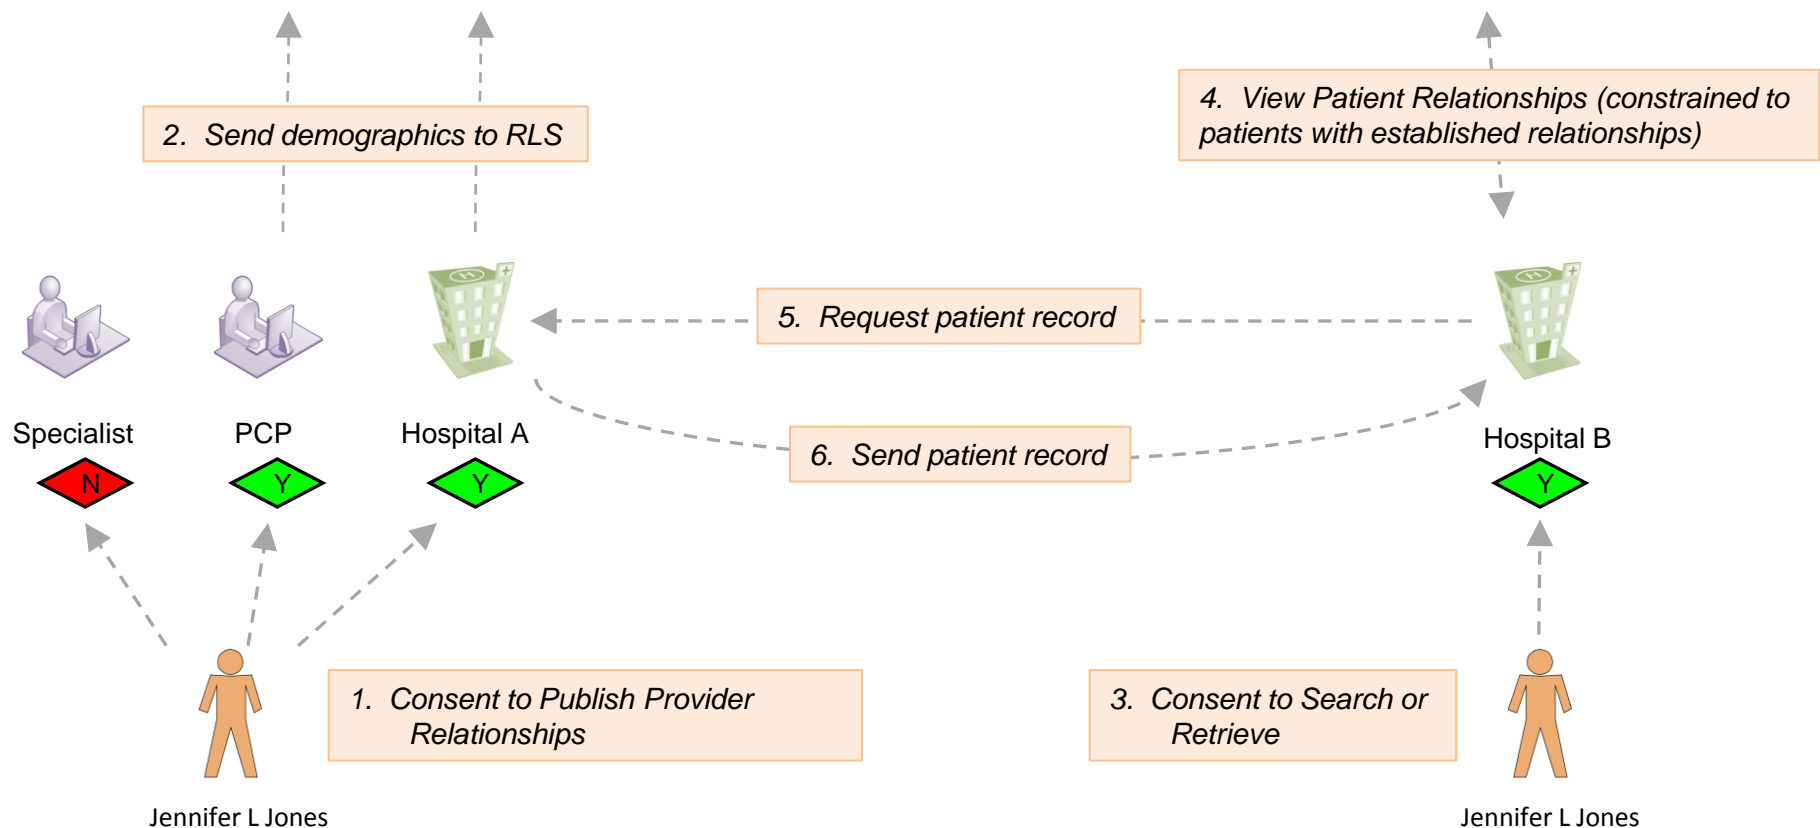

Overview of Hlway Query-Retrieve Use Patterns

The screenshot shows a web application interface for 'THE HI WAY MASSACHUSETTS HEALTH INFORMATION HIGHWAY'. At the top, there is a navigation bar with links for 'Home', 'Feedback', and 'Help', along with a user profile for 'Julie Khyber' and a 'Logout' button. Below this, the patient's name 'JONES, John' is displayed along with their 'DOB 27-Aug-1957 (55y)' and 'SEX: M'. A tab labeled 'Patient Summary' is active. On the left side, there is a section titled 'RLS View' with a 'Showing All' indicator and a 'Group By' dropdown menu. Below this, a 'Patient Summary' link is highlighted, and a 'Relationship List (29)' is shown with the following entries:

Date	Organization	Count
10-Feb-2013	Partners	8
10-Feb-2013	Beth Israel Deaconess Medical Center	12
11-Dec-2012	Orion Health Hospital	3
13-May-2011	Mass General Hospital	6

The main content area on the right is titled 'Dynamic Patient Summary Welcome' and contains the following text:

Welcome to the Dynamic Patient Summary

This portal page contains a summary of patient information extracted from various sources for a particular patient in the current context.

This page can be configured to display the windowlets of information that are of interest by using the Configure button at the bottom of the page.

Information that may be available through the windowlets could be lab orders, medications and possibly a list of current tasks required for the patient.

- Displays Organizations having sent patient consented information (ADT message) to the Hlway Relationship Listing Service (RLS)
- Displays the number of encounters for each Organization and the date of the most recent ADT message sent to the Hlway

Discussion Item 2: Advisory Group Discussion & Updates

Advisory Group Update

- **The technology Advisory Group met on August 23 to review the phase 2 design and provided valuable input on how to improve query and response transactions to enhance adoption**
- **The Legal & Policy Advisory Group met on September 3 to review and comment on the policy framework for the Master Patient Index (MPI) and Relationship Listing Service (RLS) including what data is collected and persisted, what that data may be used for, and by whom**
 - Flagged payer access as a specific issue that needs further policy development in areas such as: consent, RLS access, HIPAA prohibitions on access to cash-only services

Advisory Group Update

All 4 Advisory Groups will meet in September

- **The Provider Advisory Group will meet on September 17 to review and comment on the phase 2 design**
- **The Legal & Policy Advisory Group will meet on September 17 to review and comment on the policy framework for phase 2 consent**
 - We will also convene a smaller group of provider organizations to begin developing Phase 2 consents
- **The Technology Advisory Group will meet on September 20 to review and comment on the remaining detailed phase 2 design decisions**
- **The Consumer Advisory Group will meet on September 25 to review and comment on the phase 2 design and the patient communication approach**

Mass HIway Use Case Workshops

Learn to develop a use case for connecting to the Massachusetts Health Information Highway (Mass HIway) during a special workshop presented during the [Massachusetts eHealth Institute Fall regional meeting series](#). A use case is an easy-to-understand narrative that describes how you intend to use the HIway, the Commonwealth's first and only statewide health information exchange (HIE). Use cases are developed with a goal in mind, which makes them a valuable planning tool for any healthcare organization.

The regional meetings are a half-day learning and networking event. In addition to learning the latest information on the Mass HIway, attendees can keep up-to-date on the benefits of connected EHRs and the Massachusetts programs that support their adoption and use. The events will also feature presentations of health IT adoption success stories from area health care providers. Each event runs from 8-11:30 a.m. and will be held in the following locations:

Tewksbury | Thursday, September 12 | [Register](#)

Springfield | Thursday, September 19 | [Register](#)

Taunton | Tuesday, October 8 | [Register](#)

Boston | Tuesday, October 29 | [Register](#)

Worcester | Monday, November 4 | [Register](#)

Attend a Monthly HIway Webinar

Interested in learning about the HIway in a live online format? Attend an interactive webinar featuring Sean Kennedy, HIE director, for MeHI. The session will address the steps needed to connect to the HIway and review the options health care providers and related organizations have to get connected. Register to attend one of the following events:

October 17 | 12PM - 1PM | [Register](#)

November 14 | 12PM - 1PM | [Register](#)

December 12 | 12PM - 1PM | [Register](#)
